

# AGENDA 2019

## TACKLING YOUTH UNEMPLOYMENT

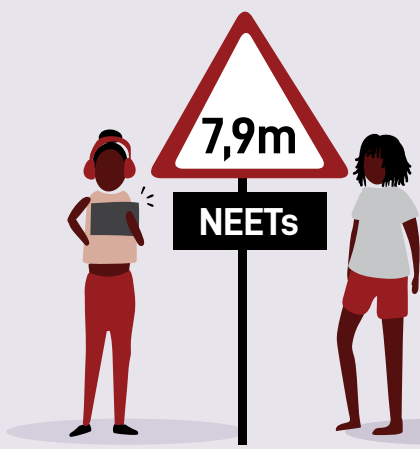

**6,2m unemployed youth** is equivalent to the total youth population (15-34) of 4 of the 9 provinces

Total youth population (15-34)  
**20,3m**

6 in 10 people who are unemployed do not have a matric

**7,9m (38,9%)** of SA youth are **Not in Employment, Education or Training (NEET)**

The unemployment rate for those aged 15-34 is **double that of 45-54 year olds**

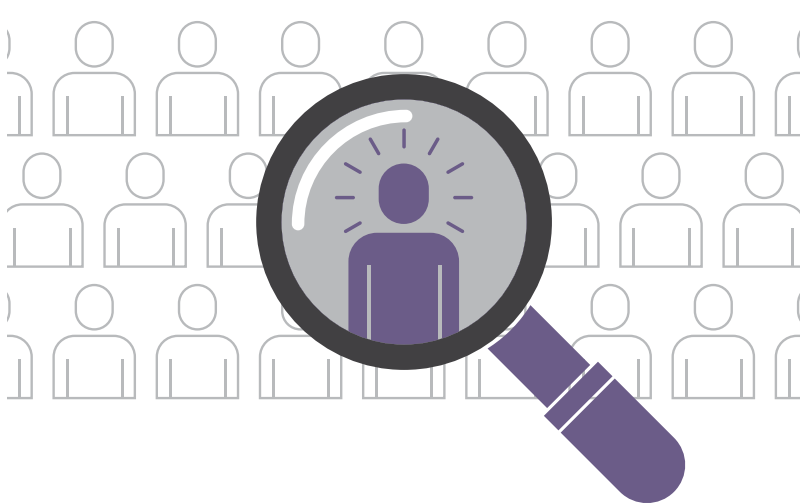

Since 2008:  
**Every day 143 young people have joined unemployment queues**

From 2008 to 2018, 523 000 people aged 15-34 have joined South Africa's unemployment queue

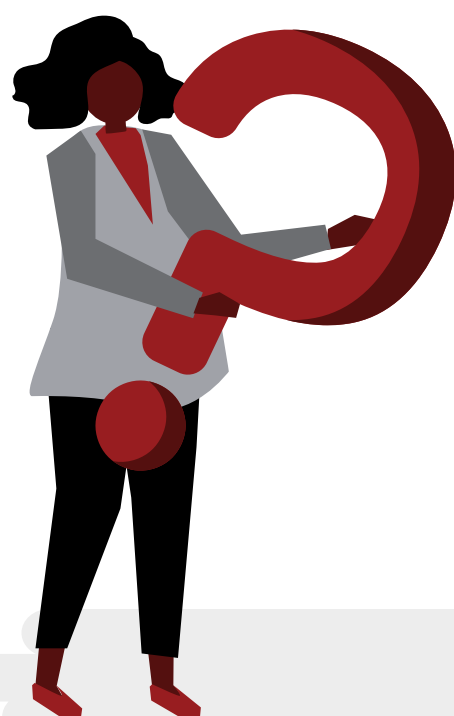

### Breaking the cycle

In the best ever quarter for youth job creation (Q3 of 2013) **about 160 000 new jobs were created for young people**

At that rate, it would take **almost 10 years to create 6,2m jobs** for every unemployed young person

**Questions to ask your political party**

1

What is your plan to transform the economy so that it generates many more job-creating firms?

2

How do you propose to incentivise employers to take a chance on inexperienced workers?

3

Is it better to have a low wage job or to remain unemployed?

4

How do you understand the role of government and the private sector in creating jobs?

5

Which labour-intensive sectors would you grow and how?

6

Do you support the current focus on high standards and wages at the expense of the unemployed?

7

How would you expand the number of small, job-creating businesses?

8

What is your view on how local and metro government could promote more jobs for young people?
